DETAILED ACTION

Response to Amendment

This is in response to an amendment/response filed on October 21st, 2008.

Claims 1, 21, 22 and 25 have been amended.

Claims, 2, 3, 23 -25 and 27 have been cancelled.

No new claims added.

-Claims 1, 4- 22 and 26 are currently pending.

Response to Arguments

Applicant's arguments with respect to claims 1-21 have been considered but are moot in view of the new ground(s) of rejection.

Claim Objections

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).
2. Claims 1, 21 and 26 are objected to because of the following informalities: the examiner requests the applicant to clarify the preamble and the body of the claims.

Regarding claim 12, the examiner requests that the applicant add limitations of claim 1 into claim 19.

The examiner also suggests the following language for claims 19 and 20 “a computer-readable storage medium storing a program having computer-executable instructions when executed by a processor to execute....”

The examiner attempts to enumerate different ambiguity in the claimed invention, but this is not considered as an exhaustive list. Therefore, the applicant obligates to correct every error in the instant application for further advance prosecution.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 -22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1, 21 and 26, claims 1 , 21 and 26 are considered as hybrid claims, it is not clear if the above claims are related to a method or a system claims. Appropriate correction is required.
